

Acclimated Entry Systems™

MANUFACTURER'S CERTIFICATION STATEMENT American Recovery and Reinvestment Act of 2009 Acclimated Residential Entry doors

Bayer Built Woodworks, 24614 Hwy 71, Belgrade, MN., is an exclusive manufacturer of the **Acclimated Entry System™**, an entry system incorporating a steel, wood or fiberglass entry door. Acclimated Entry Systems may be constructed of *Eligible Building Envelope Components* that could qualify for the federal income tax credit allowed under the Internal revenue Code, section 25C. Please check the requirements below to see which products qualify for the American recovery and reinvestment Act of 2009

Bayer Built Woodworks represents that the following *Door Products* may meet or exceed the prescriptive criteria established by the International Energy Conservation Code that qualify for the federal income tax credit allowed under Section 25C of the IRC:

Products must meet the (less than) < .30 U-factor and (SHGC) solar heat gain coefficient to qualify for credit.

The following door components may qualify:

HD STEEL DOOR and sidelight units
FIBERGLASS DOOR and sidelight units

The following *do not* meet the requirement:

- Wood doors
- Steel/Fiberglass with transoms
- Product with Screen vented Glass
- Single pane clear glass
- Doors with glass, larger than 1,100 square inches, without low-e glass

Please verify with the label to ensure your product meets this criteria.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.

Paul Weller

General Manager
Bayer Built Woodworks, Inc.

This Certificate is intended to show Bayer Built Woodworks Acclimated Entry Systems are Eligible Building Envelope Components under the relevant IRC sections. Homeowners should consult their tax advisor to determine whether they qualify for any potential income tax credits. Taxpayer should retain a copy of this statement for their records.

Issued March 2009
