Acclimated Storm Doors™

Whether you're looking for a traditional, contemporary, elegant, or informal look, there is an Acclimated Storm Door that is just right for you, in-stock from Bayer Built...

Heliarc-Welded Corners

This system uses an **exclusive four-hinge, tubular design** with bronze bushings and heavy-duty steel pins that interlock within the door frame. The hinging system has a lifetime warranty.

State-of-the-art **powder coated finishes** provide a painted surface with twice as much finish as standard painted storm door (4 mil thick vs. 2 mil thick). The Acclimated Storm Door has a 7 year warranty on the paint.

Thick extruded aluminum (.065")

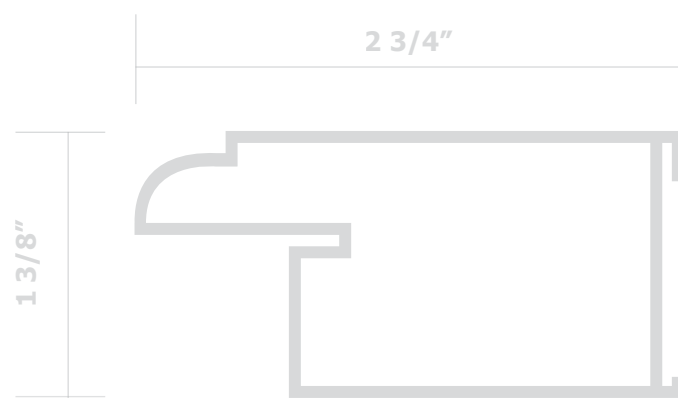

Each unit comes with a standard **black push button handle set** but we also have pull and curly lever handle sets in-stock in Oil Rubbed Bronze & Satin Nickel.

Other non-stock **styles, colors, special order glass options, and custom capabilities** are available.

Heavy Duty Aluminum Screen

A **hydraulic door closer** for a smooth, non-jarring closing action.

Fold-back wind strap

Edge fastened **bottom expander** adjusts up to 3/4" (no screws across the face of the door)

"Piling" Style Weather Seal

Our brush-type, bottom weather seal will not bind, twist, or tear like most traditional vinyl sweeps.

Stock and Non-Stock Storm Door Options

Stock Styles

Acclimated Storm Doors are pre-hung in the storm door frame. They are pre-drilled for the handle set, closer & wind strap, ready to install.

Heavy Duty Aluminum Screen

The Acclimated Storm Door screen and screen frame are constructed with the finest quality heavy duty aluminum.

Heliarc-Welded Corners

Our doors have a lifetime warranty, guaranteed not to sag, bow, or bend. Typical storm doors are constructed with plastic or wooden gussets that separate over time preventing the door from closing properly.

Thick Extruded Aluminum

Our storm doors are constructed with extruded aluminum that is 30% thicker than standard storm doors. Other storm doors often contain foam or wood to stabilize the door because of the thinner gauge aluminum.

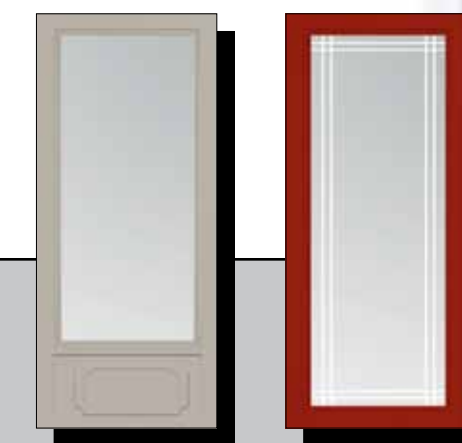

Fold-Back Wind Strap

Each unit comes with a fold-back wind strap rather than the typical bothersome, noisy door chains.

BBW Arctic White - 2155

Additional non-stock styles and colors are available, please contact your local dealer for more details.
